Syed Hassan Fida

Full Stack Developer | Web Architect | PHP | Laravel | React.js | Node.js | Next.js | AWS

Profile

As a **Full Stack Developer** and **Web Architect** with over **5 years of experience**, I specialize in building scalable, high-performance web applications using **MERN stack**, **Next.js**, **PHP Laravel (TALL Stack, Filament)**, and **AWS**. With a deep understanding of both **frontend** and **backend** technologies, I'm skilled in creating optimized, efficient solutions that align with business goals. My technical expertise is complemented by experience in **system architecture**, **API development**, and **performance optimization**.

I am passionate about collaborating with cross-functional teams to develop innovative solutions, mentoring junior developers, and continuously improving my skills. Currently, I am seeking a new opportunity to contribute to a team that values **quality, innovation, and growth**.

Skills

Backend Skills: ● ● ● ● ●

- **Languages**: PHP (Laravel), JavaScript (Node.js)
- **Frameworks**: Laravel, Express.js, Node.js, Next.js
- **Databases**: MySQL, MongoDB, ORM (Eloquent, Mongoose)
- **APIs**: RESTful API development, API optimization, GraphQL
- **Cloud & Hosting**: AWS EC2, S3, CloudFront, DigitalOcean, Docker
- **Version Control**: Git, GitHub, GitLab
- **Authentication**: JWT, OAuth 2.0, Laravel Sanctum
- **Tools**: Composer, Artisan CLI, Filament
- **Caching & Performance**: Redis, Varnish, optimizing backend performance

Frontend Skills: ● ● ● ● ●

- **Languages**: JavaScript, TypeScript
- **Frameworks**: React.js, Next.js, Vue.js
- **UI/UX Design**: Responsive design with Tailwind CSS, Bootstrap, Material UI
- **State Management**: Redux, React Hooks, Context API
- **Testing**: Jest, React Testing Library, Cypress
- **Version Control**: Git, GitHub

Professional Experience

Software Engineer, *3Amigos*
05/2024 – present
At **3Amigos**, I work as a **Full Stack Developer** with expertise in **MERN stack**, **Laravel**, and **Python**. I specialize in designing and implementing scalable backend architectures, creating intuitive user interfaces, and integrating third-party APIs. I focus on delivering high-quality, maintainable code and collaborate effectively with cross-functional teams to meet business objectives.

Key Skills: Node.js | Software Development | API Development | Machine Learning | PHP | Python | Laravel | Git | Django | Pandas | Docker | MERN Stack

Software Engineer, *Optima Geeks*
05/2023 – 04/2024
During my time at **OptimaGeeks**, I served as a **Full Stack Developer**, proficient in **MERN**, **Laravel**, and **Python**. I worked on crafting highly efficient and scalable web applications. My role involved designing and optimizing backend systems, creating frontend solutions with **React.js**, and developing APIs to integrate with external services. I also focused on **database optimization**, ensuring seamless data flow and performance.

Key Skills: Node.js | Software Development | API Development | Machine Learning | PHP | Python | Laravel | Git | MERN Stack | Docker

Backend Laravel Developer, *Virtual Underdogs*
01/2022 – 04/2023
At **Virtual Underdogs**, I worked as a **Backend Laravel Developer** and **Team Lead** for the CRM project. My responsibilities included managing the entire backend architecture for the CRM system, ensuring scalability and performance. I also led the team in implementing **REST APIs** for various business functionalities and integrating third-party services. In this role, I improved development workflows and mentored junior developers.

Key Skills: Node.js | Software Development | API Development | PHP | Laravel | REST APIs | Git | MySQL | React.js | Docker

Associate Software Engineer, *Flitkick Innovations FZE*
10/2020 – 12/2021
At **Flitkick Innovations**, I worked as an **Associate Software Engineer** on various **ERP** and **CRM projects**. I also served as the **Team Lead** for the **ERP Project**, where I managed the backend and frontend development lifecycle. I was responsible for **database architecture**, API development, and implementing business logic, ensuring the system's efficiency and scalability.

Key Skills: Node.js | Software Development | API Development | PHP | Laravel | Git | MySQL | JavaScript | React.js | Docker

Education

Bachelor's in Computer Science,
Bahria university Navy
2018 – 2022

Projects

OnwardOps: ⧉
Platform for retired military officers providing access to services and resources.

Solidariteit: ⧉
Contributed to the development and maintenance of the dynamic website using PHP Laravel and React Native.

Jahavl.com: ⧉
B2B eCommerce platform for efficient operation management between buyers, dealers, managers, and clients.

CuddleClones: ⧉
eCommerce platform for customized pet products.

Redefine.church: ⧉
Live-streaming platform with podcasts, concerts, and interactive chat and recording features.

Skylead.io: ⧉
LinkedIn marketing platform with data scraping capabilities

Omyneon ⧉
E-com website with custom product design and custom editor tools
